

Lynton & Barnstaple Railway

Past, Present & Future

Locomotives and Rolling Stock

The railway will be equipped with newly built locomotives to the same appearance as the originals. The Baldwin engine LYN will be in service in 2016 and others will follow.

LYN at Pilton Yard

The coaching stock will have the same external appearance as the originals but with revised internal layouts to cater for disabled needs. We already have three original coaches in service since 2014 (original numbers. 7, 16 and 17) with no. 11 arriving in May 2015. Coaches 16 and 11 were built with funding assistance from North Devon and Torridge Leader 4 and the Coastal Communities Fund.

Coach 7 & 17 delivered to Woody Bay April 2013

LYD with coaches 7 & 17 May 2013

We have already started to recreate the appearance and experience of travel on the Lynton & Barnstaple Railway as it once was and is so fondly remembered.
